Proposal 4: Revision of the Share-based Remuneration Plan for Directors

1. Reasons for the proposal and reasons why it is appropriate

At the 24th Annual General Meeting of Shareholders held on June 20, 2019, the Company obtained an approval for the introduction of a share-based remuneration plan called a "Board Benefit Trust (BBT)" (hereinafter, "Current BBT Plan") for Directors of the Company (including Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors) (hereafter, collectively with Directors of the Company (including Outside Directors), "Directors Eligible for the Current BBT Plan"). The plan was approved to operate for five (5) fiscal years from the fiscal year ended March 31, 2020 to the fiscal year ending March 31, 2024 (hereinafter, "Initial Coverage Period") and is currently in operation. (Hereinafter, the resolution of the Annual General Meeting of Shareholders described above is referred to as the "Original Resolution.")

The Group's management philosophy is to "strive to be a leading company that identifies social and market needs, creating a better future for people and our customers as well as developing excellent businesses and talents," and we are striving to increase corporate value through the growth of operating companies and strengthened governance by the holding company, as we keep up with the changing times in the IT industry with an eye on the latest technological trends and implement prompt decision making and conduct management in an agile manner. The Company, having considered various incentive plans that would contribute to the enhancement of corporate value, believes that by maximizing the benefits of a Trust Scheme and an RS Scheme, the linkage between Directors' remuneration and the Company's performance and share value can be made clearer, and that by having Directors share not only the benefits of a rise in the share price but also the risk of a decline in the share price with shareholders, it is possible to further enhance their awareness of contributing to improving the Company's performance and increasing corporate value over the medium to long term. Therefore, the Company has determined that it is appropriate to, along with the Current BBT Plan, newly introduce a stock benefit trust (Board Benefit Trust-Restricted Stock (BBT-RS)) (hereinafter, "BBT-RS Plan") for Directors of the Company (excluding Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors) (hereafter, collectively with Directors of the Company (excluding Outside Directors), "Directors Eligible for the BBT-RS Plan") that places restrictions for a certain period of time on the transfer of shares to be granted to the Directors Eligible for the BBT-RS Plan. (The newly introduced part is hereinafter referred to as "BBT-RS2," and the Company proposes implementing BBT-RS2 retroactively for the fiscal year ended March 31, 2023.)

In addition, with respect to the Current BBT Plan, the Company has determined that after the Initial Coverage Period, it is appropriate to continue the plan, by excluding Outside Directors of the Company from the current eligible parties and revising the plan to a stock benefit trust (Board Benefit Trust-Restricted Stock (BBT-RS) for Directors of the Company (excluding Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors), which places restrictions for a certain period of time on the transfer of shares to be granted (The revised part is hereinafter referred to as "BBT-RS1"). The Company plans to implement BBT-RS1 starting in the fiscal year ending March 31, 2025. Therefore, the Current BBT Plan will continue to exist in parallel with BBT-RS2 until that time. (Hereinafter, the Current BBT Plan, BBT-RS1, and BBT-RS2 will be collectively referred to as the "Plan.")

This proposal requests approval for the new introduction of BBT-RS2 and for the revision of the Current BBT Plan to the BBT-RS1 starting from the fiscal year ending March 31, 2025.

As with the Original Resolution, this proposal seeks to clarify the linkage between the remuneration of the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan and the Company's business performance and share value. The purpose of this proposal is to have the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan share not only the benefits of a rise in the share price but also the risk of a decline in the share price with shareholders in order to further enhance their awareness of contributing to improving the Company's performance and increasing corporate value over the medium to long term. The Company believes that the contents of this proposal are appropriate because they are consistent with the Company's policy regarding the determination of individual director's remuneration.

With this proposal, the Company asks for an approval of the specific method of calculating the amount of remuneration and the specific contents of the remuneration (remuneration under the Current

BBT Plan will be paid until the end of the fiscal year ending March 31, 2024) in order to pay the remuneration for Directors of the Company under the Current BBT Plan, BBT-RS1, and BBT-RS2, separately from the amount of remuneration for Directors approved at the Extraordinary General Meeting of Shareholders held on November 2, 2001 (annual amount at a maximum of 240 million yen (not including portions for employee salaries)). The Company requests shareholders to leave the details of the Plan to the discretion of the Board of Directors within the framework described in 2. below.

If Proposal 2 is approved as originally proposed, there will be five (5) Directors Eligible for the Current BBT Plan (including 2 Outside Directors) and three (3) Directors Eligible for BBT-RS2 (Outside Directors are not eligible for the plan). In addition, BBT-RS1 will start from the fiscal year ending March 31, 2025. If the candidates for Director proposed in Proposal 2 are in office during the fiscal year ending March 31, 2025, there will be three (3) Directors Eligible for BBT-RS1 (Outside Directors are not eligible for the plan).

2. Specific calculation method and specific details of the amount of remuneration, etc. under the Plan

(1) Overview of the Plan

The Plan is a stock remuneration plan, under which the shares of the Company are obtained through a trust established with funds provided by the Company as capital (Hereinafter, the trust established under the Plan will be referred to as the "Trust.") and the shares of the Company and money in an amount equal to the fair value of the shares of the Company (hereinafter, the "Shares of the Company, etc.") will be distributed via the Trust to the Directors Eligible for the Current BBT Plan under the Current BBT Plan and to the Directors Eligible for the BBT-RS Plan under BBT-RS1 and BBT-RS2, in accordance with the Regulations Concerning Stock Remuneration for Directors established by the Company. Under the Current BBT Plan, the Shares of the Company, etc. are distributed to the Directors Eligible for the Current BBT Plan at a predetermined time after the Initial Coverage Period (or at the time of retirement in the case of those who retire during the Initial Coverage Period), in principle, in accordance with the Regulations Concerning Stock Remuneration for Directors. Meanwhile, under BBT-RS1 and BBT-RS2, the shares of the Company are distributed to the Directors Eligible for the BBT-RS Plan at a certain time each year, in principle, and the money in an amount equal to the fair value of the shares of the Company is distributed to the Directors Eligible for the BBT-RS Plan three (3) years after the points have been granted (or at the time of retirement for those who retire before the three (3) years have passed), in principle, in accordance with the Regulations Concerning Stock Remuneration for Directors. If a Director Eligible for the BBT-RS Plan receives shares of the Company during their term of office, the Director Eligible for the BBT-RS Plan shall, prior to receiving the shares of the Company, enter into a transfer restriction agreement with the Company as described in 3. below. As a result, the shares of the Company that the Directors Eligible for the BBT-RS Plan receive during their term of office will be restricted from being transferred or otherwise disposed of for a period of three (3) years (or until the time of retirement for those who retire before the three (3) years have passed), in principle.

(2) Those eligible for the Plan

- a. The Current BBT Plan (to be terminated at the end of the fiscal year ending March 31, 2024)
 Directors of the Company (including Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors)
- b. BBT-RS2 (starting retroactively from the fiscal year ended March 31, 2023)
 Directors of the Company (excluding Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors)
- c. BBT-RS1 (starting from the fiscal year ending March 31, 2025) (revision of the Current BBT Plan))

Directors of the Company (excluding Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors)

(3) Period of the Trust

From August 2019 until the termination of the Trust. (No specific termination date has been set for the period of the Trust, and the Trust shall continue as long as the Plan continues. The Plan

shall be terminated due to the delisting of the shares of the Company, the repeal of the Regulations Concerning Stock Remuneration for Directors, etc.).

(4) Amount of funds in the Trust

To the extent approved in the Original Resolution, and in accordance with the Current BBT Plan, the Company has established the Trust by contributing funds necessary for the Trust to acquire a number of shares reasonably expected to be required to provide remuneration in the form of shares of the Company for a certain period of time in advance. Specifically, for the Initial Coverage Period, in order to provide remuneration under the Current BBT Plan to the Directors Eligible for the Current BBT Plan, the Company established the Trust by contributing approximately 62.59 million yen as the funds to acquire shares, and the Trust acquired 121,300 shares of the Company using those funds. The Trust shall continue to exist as a trust under the Plan following the revision in this proposal.

The Company plans to use the shares of the Company acquired under the Current BBT Plan by the Trust with the money contributed to the Trust by the Company to distribute remuneration in the form of Shares of the Company, etc. under the Current BBT Plan as well as to distribute remuneration in the form of Shares of the Company, etc. under BBT-RS1 and BBT-RS2. However, for the Initial Period of Coverage, the Company shall contribute additional money in an amount equivalent to the amount of funds considered necessary for the Trust to acquire in advance a certain number of shares reasonably expected to be required to provide remuneration in the form of shares of the Company under BBT-RS2. When the Company decides to make additional contributions, the decision shall be disclosed in a timely and appropriate manner.

In addition, after the Initial Period of Coverage, the Company shall continue to contribute additional funds to the Trust every five (5) fiscal years, in principle, until the termination of the Plan in an amount considered necessary for the Trust to acquire in advance a certain number of shares reasonably expected to be required to distribute remuneration in the form of the Shares of the Company, etc. under the Plan for the following five (5) fiscal years (hereinafter, "Period of Coverage"). However, when such an additional contribution to the Trust is made, if, on the day immediately prior to the beginning of each Period of Coverage, any shares of the Company (the shares of the Company equivalent to the number of points granted to the Directors Eligible for the Current BBT Plan and Directors Eligible for the BBT-RS Plan, excluding those for which the Shares of the Company, etc. have not yet been distributed) or money remain in the Trust (hereinafter, "Remaining Shares, etc."), the Remaining Shares, etc. shall be used to fund remuneration under the Plan during the subsequent Period of Coverage and the amount of the additional contribution shall be calculated taking into account the Remaining Shares, etc. When the Company decides to make additional contributions, the decision shall be disclosed in a timely and appropriate manner.

(Note) The actual amount of money that the Company will contribute to the Trust will be the total amount of the above-mentioned funds for the acquisition of shares and the estimated amount of funds necessary for expenses such as trust fees.

(5) Method of acquisition and number of shares to be acquired by the Trust

The acquisition of the shares of the Company by the Trust shall be conducted using the funds contributed in accordance with (4) above. Shares of the Company shall be acquired through the stock exchange, by subscribing to the disposal of treasury shares by the Company, or by subscribing to new shares issued by the Company.

For the Initial Coverage Period, the maximum number of points to be granted to Directors Eligible for the Current BBT Plan and Directors Eligible for the BBT-RS Plan shall be 221,500 points per fiscal year as described in (6) below. However, considering the number of shares acquired by the Trust during the Initial Coverage Period, the number of shares of the Company to be additionally acquired by the Trust during the Initial Coverage Period shall be a maximum of 220,000 shares. In addition, after the Initial Coverage Period, the maximum number of points to be granted to Directors Eligible for the BBT-RS Plan shall be 220,000 points per fiscal year as described in (6) below. Therefore, the number of shares of the Company to be acquired by the Trust for each Coverage Period after the Initial Coverage Period shall be a maximum of 1,100,000

shares. Details of the acquisition of the shares of the Company by the Trust shall be disclosed in a timely and appropriate manner.

(6) Maximum number of shares to be granted to Directors Eligible for the Current BBT Plan and Directors Eligible for the BBT-RS Plan

The Directors Eligible for the Current BBT Plan and Directors Eligible for the BBT-RS Plan shall be granted points for each fiscal year in accordance with the Regulations Concerning Stock Remuneration for Directors as described below.

- (i) The Current BBT Plan (to be terminated at the end of the fiscal year ending March 31, 2024)
 Directors of the Company (excluding Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors) will be granted a certain number of points for each fiscal year as determined in accordance with the Regulations Concerning Stock Remuneration for Directors, taking into consideration the degree of achievement of their business performance and other factors. In addition, Outside Directors of the Company are granted a certain number of points for each fiscal year as determined according to their position in the Company in accordance with the Regulations Concerning Stock Remuneration for Directors.
- (ii) BBT-RS2 (starting retroactively from the fiscal year ended March 31, 2023)

Directors of the Company (excluding Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors) will be granted a certain number of points for each fiscal year as determined in accordance with the Regulations Concerning Stock Remuneration for Directors, taking into consideration the degree of achievement of their business performance and other factors.

(iii) BBT-RS1 (starting from the fiscal year ending March 31, 2025) (revision of the Current BBT Plan))

Directors of the Company (excluding Outside Directors) and Directors of subsidiaries of the Company (excluding Outside Directors) will be granted a certain number of points for each fiscal year as determined in accordance with the Regulations Concerning Stock Remuneration for Directors, taking into consideration the degree of achievement of their business performance and other factors.

During the Initial Coverage Period, the total number of points per fiscal year to be granted to Directors Eligible for the Current BBT Plan and Directors Eligible for the BBT-RS Plan is a maximum of 221,500 points per fiscal year (including 41,500 points for Directors of the Company (including 1,500 points for Outside Directors of the Company)). Starting from the fiscal year ending March 31, 2025 (after the Current BBT Plan is revised to the BBT-RS1), the total number of points per fiscal year to be granted to Directors Eligible for the BBT-RS Plan is a maximum of 220,000 points per fiscal year (including 40,000 points for Directors of the Company).

This decision was made based on comprehensive consideration of the current level of remuneration paid to Directors, and the trends of the number of Directors Eligible for the Current BBT Plan and Directors Eligible for the BBT-RS Plan, as well as future prospects, and it is deemed to be appropriate.

The points to be granted to the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan shall be converted to shares of the Company at the rate of one share per point when they are granted shares of the Company as described in (7) below. (However, if a stock split, gratis allotment of shares, or reverse stock split of the shares of the Company occurs after approval of this proposal, the maximum number of points and the number of points already granted or the conversion ratio shall be adjusted to a reasonable extent in proportion to the relevant ratio, etc.)

For the Initial Coverage Period, the ratio of the number of shares equivalent to the maximum number of points to be granted in each fiscal year to the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan, which is 221,500 shares, to the total number of outstanding shares (as of March 31, 2023, after deducting treasury shares), which is 9,662,334 shares, is approximately 2.3%. In addition, after the Initial Coverage Period, the ratio of the number of shares equivalent to the maximum number of points to be granted in each fiscal year to the Directors Eligible for the BBT-RS Plan, which is 220,000 shares, to the total number of

outstanding shares (as of March 31, 2023, after deducting treasury shares), which is 9,662,334 shares, is approximately 2.3%.

The number of points for the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan that forms the basis for benefits in the form of Shares of the Company, etc. as described in (7) below shall be the number of points granted to the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan as at the time the benefits are determined as described in (7) below, in principle. (Hereinafter, the points calculated in this manner will be referred to as the "Number of Fixed Points.")

(7) Specific method of calculation of the amount of benefits and remuneration in the form of Shares of the Company, etc.

Directors Eligible for the Current BBT Plan and Directors Eligible for the BBT-RS Plan who meet the requirements to qualify as beneficiaries shall receive from the Trust the number of Company's shares corresponding to the "Number of Fixed Points" determined in accordance with (6) above, in principle, at a certain point in time by completing the designated procedures for determining beneficiaries. However, if the requirements stipulated in the Regulations Concerning Stock Remuneration for Directors are met, the Trust may, at a certain point in time, distribute a certain percentage of the benefits as monetary benefits in an amount equivalent to the market value of the shares of the Company instead of distribution in the form of shares of the Company. In some cases, the Trust may sell shares of the Company in order to provide monetary benefits.

Under the Current BBT Plan, Directors Eligible for the Current BBT Plan shall receive remuneration in the form of Shares of the Company, etc. at a certain point in time after the end of the Initial Coverage Period, in principle, in accordance with the Regulations Concerning Stock Remuneration for Directors. (at the time of retirement for those who retire during the Initial Period of Coverage) Meanwhile, under BBT-RS1 and BBT-RS2, Directors Eligible for the BBT-RS Plan shall receive remuneration in the form of shares of the Company at a certain point in time each year, in principle, in accordance with the Regulations Concerning Stock Remuneration for Directors. Directors Eligible for the BBT-RS Plan shall receive monetary benefits in an amount equivalent to the market value of the shares of the Company three (3) years after the points were granted, in principle. (at the time of retirement for those who retire before the three (3) years have passed)

When a Director Eligible for the BBT-RS Plan receives remuneration in the form of shares of the Company during their term of office, the Director Eligible for the BBT-RS Plan shall, prior to receiving benefits in the form of shares of the Company, enter into a transfer restriction agreement with the Company as described in 3. below. As a result, shares of the Company received by the Director Eligible for the BBT-RS Plan during their term of office shall be restricted from being transferred or otherwise disposed of for a period of three (3) years, in principle. (until the time of retirement for those who retire before the three (3) years have passed)

Even the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan who have already received points shall not be able to obtain all or part of the rights to be granted benefits if a resolution for dismissal was adopted at a general meeting of shareholders, if they retired due to certain illegal acts during their terms of office, of if there were inappropriate acts during their terms of office that could cause damage to the Company.

The amount of remuneration paid to the Directors of the Company shall be calculated on the basis of multiplying the total number of points granted to the Director of the Company at the time of granting points by the book value per share of the Company held by the Trust. (However, in the event of a stock split, gratis allotment of shares, or reverse stock split, etc. of the shares of the Company, the amount shall be adjusted to a reasonable degree in proportion to the relevant ratio, etc.). In addition, if, in accordance with the Regulations Concerning Stock Remuneration for Directors, monetary benefits are paid in exceptional cases, the amount of the monetary benefit may be added to the remuneration, if deemed appropriate.

(8) Exercise of voting rights

The voting rights of the shares of the Company held by the Trust account shall not be exercised in their entirety in accordance with the instructions of the administrator of the Trust. This is

intended to ensure the neutrality in the management of the Company regarding the exercise of voting rights of the shares of the Company held by the Trust account.

(9) Handling of dividends

The dividends of the shares of the Company held by the Trust account shall be received by the Trust and used to fund the acquisition of shares of the Company or for compensation paid to the trustee of the Trust. If the Trust is terminated, dividends etc. remaining in the Trust shall be distributed to the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan in office at the time in proportion to the number of points held by each of them, in accordance with the Regulations Concerning Stock Remuneration for Directors.

(10) Handling at the time of termination of the Trust

The Trust shall be terminated in the event of the delisting of the shares of the Company, the repeal of the Regulations Concerning Stock Remuneration for Directors, or a similar event.

Of the remaining assets of the Trust at the time of termination of the Trust, all of the remaining shares of the Company will be acquired by the Company without compensation and then cancelled by a resolution of the Board of Directors. Of the remaining assets of the Trust at the time of termination of the Trust, the monetary portion remaining after excluding the amount of money to be paid to the Directors Eligible for the Current BBT Plan and the Directors Eligible for the BBT-RS Plan as per the item (9) shall be granted to the Company.
